English

Very low effort port of a free 2D Maze Runner-style android game. Game runs at a set resolution with no options or rebindable keys. Advancing the dialogue and navigating the menus is clunky. Pressing the buttons to perform actions feels like simply swapping the character for another sprite which very well might be the case.

The only changes from what I can tell is the option to scale up to full screen and that the option to buy ingame currency is taken out in favor of the upfront cost which is steep for this level of quality.

Consider grabbing it for free on Android instead. You can get vastly superior games even at this price on Steam. I returned this game at 40% off.. Music is insane in this game, the art and backgrounds are amazing. There's a surprising actual story here with great cut scenes integrated with gameplay! Overall for this price it's a must have!. Wonderful, challenging runner. My wife gave it a try and she's hooked too! Overall, a nice pick up and put down game that's well worth the price.. Fun game. Challenging.
